ERDF Trade Mission to Food and Drink Business Europe, Dublin

An opportunity for businesses in the Food & Drink Sector based in the North West to exhibit at the Food & Drink Business Europe Conference and Exhibition held at City West, Dublin on 5th September 2019

Now in its 7th year, the event is billed as Ireland's premier trade event for the food and drink processing, food wholesale, food service and hospitality sectors.

With over 2000 visitors it runs alongside and gives access to other events in the same location such as Artisan and Fine Foods Show, The Craft Beer and Spirits Summit, Food, Retail and hospitality show, The Forecourt and Convenience Retail expo, The Future Food and The Pub and Off Licences Expo.

We are offering eligible companies an opportunity to exhibit on the dedicated North West Food and Drink Stand, and attend the conference with the potential to meet with key decision makers in the business to business supply chain including wholesalers, buyers, and merchandisers from food and drink processing, food wholesale, food service, and hospitality sectors.

The exhibition and conference costs in Ireland will be funded under the Enhancing SME's International Trade Performance project. The mission is open to North West based SMEs operating in the Food & Drink Sector, trading for at least 12 months, who have not already received support through this ERDF programme - eligibility criteria apply. All businesses will be responsible for their own travel and accommodation costs.
