## Export Consultants, Controls and Certificates

### **AmiVet Exports**

We are veterinary surgeons who advise on and sign export health certificates for the export of animal products all over the world. This includes meat products, dairy/milk/cheese products, hides, skins, eggs, fish, pet foods, laboratory, gelatin and many more.

We offer an advisory service to assess if an export is possible and can advise on matters such as export requirements, import permits, disease status, manufacturing and processing requirements and country of origin requirements.

### **Carroll Consulting**

Make sure you make the most of Brexit and continue to build your business presence in Europe. We could be your market research and communications partner for Germany and Austria.

We can analyse your market in Germany and/or Austria and inform you of the potential success for your product or service. We will iron out any uncertainties on this opportunity for business success in Germany and/or Austria. We can research your market and provide you with value-added information from which you can take a more levelled, positive decision. And if that decision should be to invest in bringing your product or service to the German-speaking markets, we can be here for you every step of the way in providing a proposal on the route to market and an in-depth communications plan.

### **Department for International Trade**

We work closely with the Department for International Trade (DIT) in the North West. We have access to a network of 30 highly experienced International Trade Advisors who have extensive industry and market experience.

To get in touch with DIT, please email [exportbritain@gmchamber.co.uk](mailto:exportbritain@gmchamber.co.uk) and our team will introduce you.
