

CONFERENCE, MEETINGS & EVENTS

WE MEET AGAIN

CHAMBER SPACE IS OPEN

Chamber Space is open and ready to support clients, old and new, with space that is welcoming, secure, and perfect for business.

Over the last five months businesses have been forced to engage virtually and, while this has worked well for some, people are missing the important personal interactions that allow them to really connect and create.

Whether it be a planning meeting, training course or team briefing, our space guarantees you a confidential but friendly environment to meet.

Creating a relaxed and welcoming atmosphere is what we do, and the measures we have in place ensure our clients can return to us with confidence.

TEMPERATURE MONITORING SYSTEM - on entry, all staff and guests will need to pose for our thermal imaging camera (supplied by Avoira)

A SIGN OF THE TIMES - we have invested in signage that will give our guests the confidence to move around our spaces in a socially distanced way.

CLEVER CLEANING - we've partnered with Manchester based company, Cloud Cleaners, who have implemented thorough cleaning routines with materials that are best suited to eradicating viruses - on top of that daily clean, all the areas that our visitors use throughout the day will be cleaned on an hourly basis.

THINK PERSONAL SERVICE - one of our friendly team will be in place to support customers on every floor.

MORE SPACE! - On average, customers will have 25% more space for their meetings & events than before. We have reduced our room capacity to allow for social distancing and this gives our customers more space to meet, create and socialise.

STAFF - more training and support for our teams to ensure they are confident and ready to make your visit a good one.

PLAN TO SANITISE - all our venues have multiple hand sanitising stations.

BEST OF BOTH WORLDS - Maximise the reach of your meeting or event by taking one of our hybrid event packages which allow virtual attendees to join your physical event. From video conferencing for meetings to full videography and online event solutions. They will feel like they are 'in the room'.

FACE MASKS - For the safety of our guests and team, all Chamber Space staff will be wearing face masks at all times during your visit (don't worry, we're smiling underneath). To support this, we ask that all visitors wear masks in all communal areas (reception, walkways, lounges & bathroom facilities)
