

Silent Insurance Review – Sssshhh We won't tell

How It Works

We will undertake a full review of your current insurance arrangements, without your existing broker or insurer finding out!

It's free to all chamber members and totally confidential.

We will provide you with a detailed report commenting specifically on the following areas:

- Is your current risk and insurance programme fit for purpose?
- Is your current premium competitive compared to similar risks in the market?
- Highlight relevant conditions and warranties that you need to be aware of?
- Are your insurers reserving claims correctly and fairly?

Commitment From You

The only thing we need is for you to provide us with the time and access to all of the necessary people and information to do the review.

Benefits To Your Business

You can test the adequacy and competitiveness of your current insurance arrangements without disturbing the relationship with your current broker/insurer.

Don't Wait Until Renewal

You can have a review and change your broker at any point in the annual insurance cycle, not just at renewal.
